Gibtelecom

From Airplane Mode to Holiday Mode with Roam Like at Home

Roam without surcharges using your existing Gibtel mobile plan anywhere in the European Economic Area (EEA)

Since 1 June this year, if you are a Gibtel mobile customer you can use all your inclusive minutes, SMS or data allowances anywhere within the EEA. Reload, Mini and Select plan customers with data or SMS bundles can also take these allowances and use them within the EEA.

This means, for example, that if you are on a Maxi Plan you can use your 1000 mins, 1000 texts and 5GB of data either locally or in any EEA country with no surcharges. Once allowances have been consumed or if you do not subscribe to a bundle or plan with allowances, local off-net and out of bundle charges will apply. There are also no charges for incoming calls received when roaming within the EEA on any Gibtel mobile plans.

So switch roaming on and use your data or call and text back to Gibraltar, just like you do at home.

Visit www.gibtele.com for detailed information on how 'Roam Like At Home' applies on your plan.

Gibtelecom sponsors Cyber Security Summit

Making internet security a priority for Gibraltar

Gibtelecom were proud sponsors of Gibraltar Cyber Security Summit, held at the Sunborn on Tuesday 13 June. The event brought together delegates from both the private and public sectors including personnel from law enforcement agencies to discuss issues ranging from current and future threats to personal and family protection.

The Summit, which was attended by over 230 people offered delegates insight, advice and demonstrations provided by leading figures from across the field of cyber security including the FBI; the UK Government Communication Headquarters; and the National Crime Agency.

Gibtelecom's VP of Technology Projects, William Jackson, was one of the speakers at the event, covering botnets and common cyber security attacks.

Internet security has never been more important, with phishing, hacking and other email scams becoming increasingly common. Gibtelecom publishes personal internet safety tips on its newly revamped website at www.gibtele.com
