## Get the best entertainment on the go

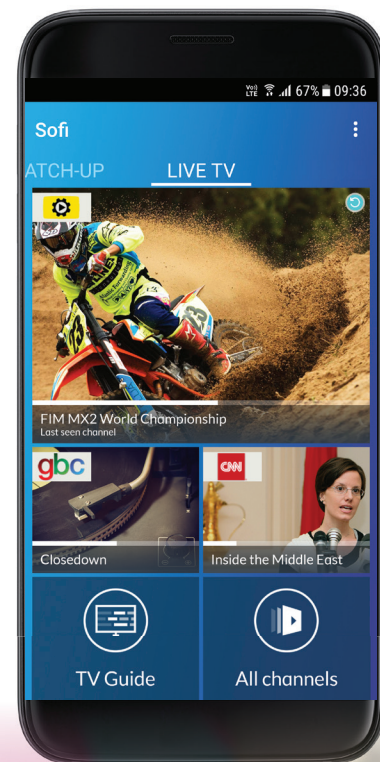

The Sofi mobile app is available to download now, as part of your Sofi Digital Entertainment package

Your Sofi subscription includes a subscription for one mobile device on the Sofi app, but for a small fee of £5 each a month you can add up to two additional devices. It can be downloaded free of charge on both Android and iOS app stores.

The Sofi app gives you access to over 30 live TV channels, including catch-up on eligible programming. It also has interactive features including smart remote functionality and 'flick and fetch' so you can continue watching programmes you were watching on the TV on your mobile device and vice versa.

In order to log into the app you will need your Sofi Subscriber ID e.g. TV00001 and the four digit PIN you provided when you applied for the service. The app will work on your home Wi-Fi network, Gibtelecom public Wi-Fi networks and the Gibtel 3G/4G Network.

Note that the applications hub, which is accessible on the TV service, is not available via the Sofi app. However you can download these apps directly from the relevant app store for most of the apps on the hub e.g. Hopster, Deezer, Rakuten and PrimeVideo, and use the same login credentials you use on your set top box to access the content on your phone or tablet.
