

Gibtelecom

Managed Infrastructure.

Deployed globally. Fast.

With **flexible payment** models and **rapid global delivery**, the sky's the limit.

Gibtelecom's Bare Metal offering delivers dedicated, secure hardware environments with fully customised setup options

Combined with fast, reliable internet connectivity, wherever your global operations may be, our expert-managed service lets you focus on your core business while we handle the infrastructure.

Gibtelecom

Key benefits

Global reach & rapid delivery

Available across strategic international locations with **fast deployment** timelines.

Complete server control

Ideal for regulated industries - avoid shared infrastructure and **customise your environment** for data-intensive workloads.

Flexible payment models

Reduce or eliminate the need for high CAPEX investment with **scalable OPEX-focused options**.

Hassle-free deployment

Fully **managed IT procurement**, data centre management, racking & stacking, and high-availability connectivity.

Why choose Gibtelecom as your Managed Infrastructure provider?

- ✓ **Enhanced physical isolation:** Superior security and regulatory compliance.
- ✓ **High performance:** Greater processing power and reliable infrastructure.
- ✓ **Improved QoS & performance:** Optimised service delivery.
- ✓ **Cost-effective deployments:** Efficient rollouts with reduced overhead.
- ✓ **Expert management:** End-to-end solution management by Gibtelecom specialists.
- ✓ **Agility and speed to market:** International deployments in as little as 6-8 weeks
