

Gibtelecom

Managed Security.

Sharp-eyed IT consultancy
and security services.

**Cyber risk monitoring, quick
response, and managed firewalls**
to keep your business secure.

Delivering peace of mind with fully Managed Security Solutions.

In today's digital-first world,
where critical operations
depend on secure online
infrastructure, cybersecurity is
not just an IT concern - it's a
business imperative.
Gibtelecom delivers market-
leading managed security
services through a robust,
global private network,
helping enterprises detect
and prevent threats before
they cause harm.

Gibtelecom

Improve your cybersecurity posture

Whether you're preparing for an audit or responding to a breach, our services empower you to stay resilient:

- Maturity & gap assessments (NIST, DORA, ISO)
- Incident readiness (tabletop exercises & process reviews)
- Accreditation preparation
- Risk governance and policy development
- Portfolio cyber risk monitoring
- Cyber awareness training
- Cyber forensics & investigations
- Technical testing (pen testing, red teaming)
- Managed Detection & Response (MDR)

Rapid incident response – 24/7/365

In the event of a cybersecurity incident, contact us immediately. Our dedicated cyber incident response team can be deployed instantly, providing expert support when it matters most.

Ready to secure your enterprise?
Let Gibtelecom be your trusted cybersecurity partner.
