

Gibtelecom

Office 365

Backup-as-a-Service.

To stay in control when things go down.

Gibraltar-based BaaS for your business's **data protection**.

**Secure. Local.
Always Accessible.**

Gibtelecom's Microsoft 365 Backup service protects your cloud data by eliminating the risk of losing access and control over key Office 365 applications, including:

- ➔ Exchange Online
- ➔ SharePoint Online
- ➔ OneDrive for Business
- ➔ Microsoft Teams

Gibtelecom

Key features

Scheduled backups

Run regular, non-disruptive backups at times that suit your business.

Flexible file versioning

Retain multiple versions of documents and restore or export them as needed.

Efficient storage

Block-level deduplication and instancing to minimise storage use and bandwidth.

Advanced search tools

Find specific items using keyword and metadata filters.

Data export options

Export to EML, PST, CSV, and ISC formats when required.

Self-service portal

Manage and restore data independently through an intuitive dashboard.

Simple OPEX model

Predictable monthly billing – no CAPEX investment required.
