DIRECTORS' REPORT

The Directors present their report, business review and the audited financial statements for the year ended 31 December 2017 for Gibtelecom Limited ("Gibtelecom" or "the Company") and its subsidiaries (together the "Group").

The Group has been trading as Gibtelecom since July 2002, and as of 1 October 2003 this name was formally adopted by the Company (previously Gibraltar Nynex Communications [GNC]). In January 2009 the subsidiary company, Gibraltar Telecommunications International (Gibtel), whose assets and liabilities had been transferred to the parent company, was struck off having been a non-trading subsidiary following its acquisition by GNC in September 2001. In August 2016 a new wholly owned subsidiary company, Rockolo Limited, was established to handle the Group's data centres business at arm's length from the Company and began trading in 2017. In 2017 a subsidiary company, Zinnia Ltd was set up to operate an MVNO (mobile virtual network operations) business in Spain. Zinniatel SL, a company owned by Zinnia Ltd was licensed to operate in Spain in June 2017. Gibconnect Limited, the former internet service provider subsidiary, remains a nominal non-trading company.

Principal Activities

Gibtelecom is registered in Gibraltar and is authorised under the Gibraltar Communications Act 2006 to provide various communication services. The Group's principal activities are the provision of fixed line, mobile, broadband and various business enterprise services, together with the supply of communications equipment in Gibraltar. The Group is also a provider of data centre services in Gibraltar and a global communications carrier, through its ownership investment in submarine fibre optic cables and several technical points of presence in Europe.

Retain customer loyalty and increase average user revenue

In the face of increasing and challenging competition in the market, the Group managed to preserve its local customer base with the exception of Broadband which saw a decline from 90% to 70% in market share. All this was made possible by continuing to invest in the latest technology and ancillary infrastructure.

Gibtelecom's "Monster Bundle" initiative continues to prove popular with customers. This gives customers a package comprised of the Company's Maxi mobile plan, at double the mobile data (from 5Gb to 10Gb); the Company's 100Mb Superswift fibre broadband service; and access to the Company's public Wi-Fi hotspots across Gibraltar. Despite this over 2,000 Gibtelecom broadband accounts had been disconnected by year ended 2017, with the Company's broadband market share estimated to stand at 68%.

During 2017, the Company also introduced "roam like home" tariffs which did away with roaming surcharges for Gibtelecom customers using their phones in the UK and Spain, as well as other European Economic Area (EEA) countries enabling them to use their phones as they do in Gibraltar and take their inclusive minutes, data and SMSs and use them anywhere in the EEA, as part of their plans, with no additional costs. This initiative took effect ahead of the European Commission timeline for the abolition of roaming surcharges in Europe on 15 June 2017.

DIRECTORS' REPORT

In partnership with Ericsson, the Company began the introduction of next generation technologies with the planned deployment of an IP Multimedia Subsystem (IMS) solution. This deployment, expected to be operational by 2019, will provide customers with a variety of new and improved services and features, including high-definition (HD) calling and instantaneous call setup times on their mobile devices through the introduction of Voice over LTE, (VoLTE). VoLTE will enable customers to make calls over the 4G+ network, whilst keeping their high bandwidth mobile data connections alive at the same time. Going forward, IMS will also facilitate the introduction in due course of 5G mobile services in Gibraltar. The introduction of the IMS platform will also see the eventual replacement of the System X fixed line switch housed at City Hall.

The reengineering and refresh of the Company's mobile network was completed in 2017 resulting in additional capacity being freed and made available on certain 2G frequency bands which will be used for LTE deployments going forward. The Company also completed an upgrade of its 4G+ mobile network. This provides for increased 4G+ network capacity and improved indoor penetration, as well as increased download speeds. At the same time Gibtelecom increased the number of voice roaming arrangements to cover 182 countries with 544 roaming partners. The Company's 4G data roaming footprint is now being offered by 36 partners in 20 different countries; these include Gibtelecom's main mobile roaming markets of the UK and Spain. Prepaid mobile customers (Reload) can also use their mobile services in 102 countries across the globe, with 227 different operators. All Gibtelecom mobile services are available across the 31 members of the European Economic Area (EEA).

The net effect of these network and infrastructure improvements has propelled Gibraltar to rank in the top third of fastest broadband speeds in the world with Gibtelecom able to provide broadband speeds of up to 100Mbps on its fixed line service. Unlike other local internet providers, these are provided in an "uncontended" manner, meaning that customers receive these speeds, subject to certain technical considerations, regardless of the time of day or the number of people accessing the internet at that time. The Company's mobile customers can also now attain 4G+ download speeds of up to 400Mbps on their mobile devices under certain conditions.

Towards the end of the 2017 year Gibtelecom announced that it would be launching a fully licensed IPTV service, providing some innovative new features. The new service, marketed as "Sofi", provides attractive triple and quad play offers for the Company's broadband customers. From its announcement, the Company explained that it was important to build relationships with the content providers and acquire the necessary rights and licenses to distribute television channels and content in Gibraltar.

As regards enterprise services, in March 2017 Gibtelecom announced the formal launch of its new specialised data centres business, Rockolo Limited. Having a separate entity dedicated to the provisioning of data centre services allows for a greater focus and specialisation on what is a highly demanding and technology dependent business. With the launch of its new data centre at the World Trade Center, the Company now occupies some 1,600 m2 of facilities at two locations in different parts of Gibraltar. Later in the year, Rockolo launched Gibraltar's first locally-hosted cloud computing solution. This new service supports a variety of online business solutions including data backup, disaster recovery and business continuity.

DIRECTORS' REPORT

Further enhance Gibtelecom's global presence and network

Building on its already established global presence, with a network reach extending to south-east Asia and beyond. 2017 saw Gibtelecom being able to further enhance its enviable position through the fomenting of new relationships and the nurturing of existing ones abroad.

Building on its existing partnership with Telekom Malaysia, Gibtelecom was able to acquire additional bandwidth on the SMW5 and BBG cables. The SMW4 and 5 cables run from Marseilles to Southern Asia, and through these extensions of its global network Gibtelecom is able to directly service carrier clients from Singapore, as well as now being able to offer e-gaming and other customers direct connectivity and resilience from Europe to Singapore. It is estimated that the total revenue value of these first deals is over £250k annually.

During the course of the year Gibtelecom continued to explore the possibility of building a submarine cable between Gibraltar and Morocco - Project Tarik. Discussions were held with several Moroccan operators over the concept of a Desktop Study (DTS), including the possibility of Gibtelecom initiating and funding the DTS.

In addition, the Company took the decision to participate in the EIG upgrade 3. The decision was taken with due consideration to upcoming projects, in particular Project Tarik. The investment in upgrade 3 saw the total capacity in EIG increased by an additional 2.2m MIU's (Minimum Investment Units. The upgrade was completed successfully towards the latter end of 2017. Gibtelecom also undertook a strategic review of terrestrial connectivity to Madrid which now provides for a more cost effective and optimally designed network for transmission purposes.

Gibtelecom joined the Commonwealth Telecommunications Organisation (CTO) as an ICT Sector Member in 2017, thereby strengthening its global presence and brand. The Company also participated in several key international carrier and trade group events including the Mobile World Congress, the International Telecoms Week (ITW) and the World Submarine Cable Conference, amongst others. In addition, the Company sponsored a number of media and high-profile events, such as the e-Gaming Review (EGR) Awards and the Foreign Press Association (FPA) Media Awards.

Corporate social responsibility

During 2017, Gibtelecom continued to maintain its enduring promise to support and promote the local community, investing in its employees, and being conscious of the environment by continuing to pursue green policies where possible.

Gibtelecom's most valuable asset is its people and the Company continues to invest in recruiting and attracting local talent via the Sponsored Undergraduate initiative; Gibtelecom's student Work Placements; and Employer Led Degree programme, as well as extensive tailored training opportunities for employees. In total over 440 training days by c52% of personnel was conducted during the year. In addition, a new company-wide development Gibtelecom Aspirational Programme (GAP) has been designed and came into effect in 2018.

For the second year running, Gibtelecom sponsored the Gibraltar World Music Festival (GWMF) and continued its support for the Gibraltar International Chess Festival, powering the technology that broadcasts the event around the world. Gibtelecom is also in a multi-year partnership with the Gibraltar Football Association (GFA) which has renamed the Association's premier cup competition to the Gibtelecom Rock Cup.

DIRECTORS' REPORT

The four-year deal started with the 2016/17 season and is designed to assist both the GFA and Gibtelecom in leveraging their national and international brands, as well as marking the commencement of a longer-term relationship between the two organisations

The Company also sponsored and helped make the difference to numerous local charities, cultural events and sporting organisations during the year including the second of three annual donations to Calpe House Trust. In conjunction with HM Government of Gibraltar Ministry for Sports, Culture, Heritage and Youth, the Company sponsored other events, including the Literary Festival and the Jazz Festival.

Gibtelecom continued to reduce power consumption despite its expanding technological requirements. The Company is pursuing this by promoting power and carbon footprint reduction measures and conducting itself in an environmentally ethical manner. Power consumption was reduced by c6% year on year despite significant technological growth. The Company runs a general energy saving programme throughout its premises as well as ensuring the safe and environmentally friendly disposal and/or recycling of equipment and materials. Additionally, the Company is on track to meet EU carbon emissions target of 146g/Km on its light commercial vehicles (LCVs) before the 2020 deadline.

Future Developments

The Company sees the development of 5G technology and provision of business enterprise services in Gibraltar and internationally as vital components of its future Long-Term Planning (LTP) strategy.

Principal risks

Gibtelecom considers the loss of revenue through the relocation of egaming business from Gibraltar as result of Brexit one of the principal risks in the immediate future.

Financial results

The Company's turnover has remained stable year-on-year, earned against a background of increasing competition at home and overseas, alongside reducing mobile and broadband charges. Through the containment of costs, the profitability of the business, the EBITDA (Earnings Before Interest Tax Depreciation and Amortisation) margin was 37%, producing profits after taxation of £7,079,434 (2016: £8,467,919). The dividends paid in the year 2017 were £6,000,000 (2016: £6,000,000). No further dividends recommended.

The Board Directors who held office during the year are shown below.

British Joe Bossano

Chief Executive Officer British (resigned 22 January 2019) Tim Bristow Chief Executive Officer British (appointed 6 May 2019) Noel Burrows Chief Operations Officer British (appointed 22 January 2019; Adrian Moreno

resigned 6 May 2019)

British Albert Mena

British Chairman Fabian Picardo

An Executive Committee is responsible for the day-to-day management of Gibtelecom. This senior management group is comprised of the Chief Executive Officer and Board Director, Noel Burrows, together with the Chief Operations Officer and three Operational Directors (Global and Business Development; Technology; and Customer Operations).

DIRECTORS' REPORT

Statement of directors' responsibilities

The Directors are responsible for preparing financial statements for each financial year which give a true and fair view of the state of affairs of the Company and the Group at the end of the financial year and of the profit or loss for that period and which comply with the Gibraltar Companies Act 2014.

Under that law the Directors have elected to prepare the financial statements in accordance with applicable law in Gibraltar and Gibraltar Financial Reporting Standards. In preparing the financial statements, the Directors are required to:

- · select suitable accounting policies and apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis, unless it is inappropriate to presume that the Company and the Group will continue in business.

The Directors confirm that they have complied with the above requirements in preparing the financial statements and that Gibraltar Financial Reporting Standards have been applied in their preparation.

The Directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with applicable law. They are also responsible for safeguarding the assets of the Company and the Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Auditor

The retiring auditor, Deloitte Limited, has been re-appointed by the Company's Annual General Meeting.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF GIBTELECOM LIMITED

Report on the audit of the consolidated financial statements

Opinion

In our opinion the consolidated financial statements of Gibtelecom Limited ("the Company") and its subsidiaries (together the "Group"):

give a true and fair view of the state of affairs of the Group and the Company as at 31 December 2017 and of the Group's profit for the year then ended;

 have been properly prepared in accordance with Gibraltar Generally Accepted Accounting Practice including Gibraltar Financial Reporting Standard 102; and

have been prepared in accordance with the requirements of the Companies Act 2014.

We have audited the financial statements which comprise:

- the consolidated profit and loss account;
- · the consolidated statement of other comprehensive income;
- the consolidated balance sheet;
- · the company balance sheet
- the consolidated statement of changes in equity;
- · the consolidated cash flow statement; and
- the related notes 1 to 27.

The financial reporting framework that has been applied in their preparation is applicable law in Gibraltar and Gibraltar Financial Reporting Standards, including Gibraltar Financial Reporting Standard 102 (Gibraltar Generally Accepted Accounting Practice).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the Group in accordance with the International Ethics Standards Board for Accountants Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in respect of these matters.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF GIBTELECOM LIMITED (continued)

Responsibilities of directors

The directors are responsible for the preparation of financial statements that give a true and fair view in accordance with applicable law in Gibraltar and Gibraltar Financial Reporting Standards, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including
 the disclosures, and whether the financial statements represent the underlying transactions and
 events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF GIBTELECOM LIMITED (continued)

Report on other legal and regulatory requirements

Opinions on other matters prescribed by the Companies Act 2014

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the directors' report has been prepared in accordance with the requirements of the Companies Act 2014.

In the light of the knowledge and understanding of the Group and its environment obtained in the course of the audit, we have not identified any material misstatements in the directors' report.

Matters on which we are required to report by exception

We have nothing to report in respect of the matter where the Companies Act 2014 requires us to report to you if, in our opinion, we have not received all the information and explanations we require for our audit.

Use of our report

This report is made solely to the Company's members, as a body, in accordance with Section 257 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

The notes on pages 15 to 43 form part of these financial statements.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2017

1. ACCOUNTING POLICIES

These financial statements have been prepared under the historical cost convention and in accordance with the accounting policies set out below, applicable legislation and Gibraltar Financial Reporting Standard 102 ("GFRS 102"), which is based on the United Kingdom Financial Reporting Standards.

Gibtelecom Limited ("the Company") is a company incorporated in Gibraltar. As a communications business, the Company operates mobile, broadband and fixed networks in Gibraltar, providing a range of voice and data services and business enterprise products including data centres. The Company also operates a global fibre optic network, with points of presence in several European cities.

Gibraltar legislation applied in the preparation of these financial statements is the Companies Act 2014. The functional currency of the Group is considered to be pounds sterling because that is the currency of the primary economic environment in which the Group operates, albeit the Group carries out transactions in Euros and United States dollars.

A summary of the significant accounting policies is set out below.

Basis of consolidation

The consolidated financial statements deal with the financial statements of Gibtelecom Limited ("Gibtelecom") and its wholly owned subsidiaries, Gibconnect Limited, Rockolo Limited and Zinnia Limited as at 31 December 2017. In accounting for its shareholding in its non-trading subsidiaries, the Company consolidates fully its nominal shareholding at the year end.

The Company has opted for the exemption from preparing its own profit and loss account and related notes available under section 288(2) of the Companies Act 2014.

Going concern

The directors have a reasonable expectation that the Company and the Group have adequate resources to continue in operational existence for a period of at least 12 months from the date of approval of the financial statements. Thus they continue to adopt the going concern basis of accounting in preparing the annual financial statements.

Turnover

Turnover represents the amounts billed for various domestic and international communications services; related equipment rentals and sales; and data centre services.

Revenue in respect of all communications services is accounted for in the period when the services are provided, including prepaid mobile call card sales which are deferred until the customer uses the stored value in the card to pay for the relevant calls.

Revenue in respect of global wholesale carrier contracts is accounted for in the period in which the services are provided.

Equipment rentals and data centre charges are recognised as income over the period to which the charges relate.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2017

1. ACCOUNTING POLICIES (continued)

Foreign currencies

Assets and liabilities denominated in foreign currencies are translated into pounds sterling at the prevailing rates of exchange at the balance sheet date. Transactions in foreign currencies are translated into pounds sterling at the rate prevailing on the date of the transaction. Differences on exchange are taken directly to the profit and loss account in the period in which they arise.

Operating leases

Rentals on operating leases are charged to the profit and loss account as incurred.

Provision for doubtful debts

Provision is made for all customer billed communications debts which are over three months old. In all other cases specific provisions are made should the Directors consider that the recovery of debts is in serious doubt.

Tangible fixed assets

Tangible fixed assets are stated at cost (which comprises cost of equipment and materials, including freight, charges for installation and building works) less accumulated depreciation and any provision for impairment. On disposal of tangible fixed assets, the difference between the sales proceeds and the net book value at the date of disposal is recognised in the profit and loss account. No direct labour costs incurred by Gibtelecom in the installation of the Company's communications infrastructure, network equipment and plant are currently capitalised.

Tangible fixed assets are depreciated to their residual value in equal annual instalments over their estimated useful lives on a straight-line basis. The annual rates applied are set out below.

Plant and equipment	5% - 33%
Furniture, office equipment and software	15% - 33%
Motor vehicles	20% - 25%
Freehold land and building	2%
Leasehold land and building	2%

The freehold land and building relates to the Company's premises at 15/21 John Mackintosh Square. The leasehold buildings held by the Company relate to the 49 years leasehold property at Mount Pleasant and the 150 years leasehold Haven property in John Mackintosh Square.

Assets in the course of construction are not depreciated until they are brought into use.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2017

1. ACCOUNTING POLICIES (continued)

Impairment

Financial assets are subject to impairment review in accordance with GFRS 102 Section 27 'Impairment of assets' if there are events or changes in circumstances that indicate that their carrying amount exceeds their recoverable amount. The impairment review comprises a comparison of the carrying amount of the assets with their recoverable amount, which is the higher of net realisable value and value in use. The carrying value of the assets is written down by the amount of any impairment and this loss is recognised in the profit and loss account in the period in which it occurs. If the occurrence of an external event gives rise to the reversal of an impairment loss, the reversal is recognised in the profit and loss account and by increasing the carrying amount of the financial asset in the period in which it occurs. The carrying amount of the asset will only be increased up to the amount that it would have been had the original impairment not occurred.

Submarine cable

The Europe India Gateway (EIG) submarine cable system in which Gibtelecom has an ownership interest, is recognised as a prepayment in the balance sheet. This investment is amortised equally over the estimated useful life of the cable.

Payments received as a result of onward sales of EIG capacity are recognised as deferred income on the balance sheet and amortised over the length of the agreement or the estimated useful life of the cable, whichever is shorter.

Pension schemes

Gibtelecom operates two funded defined-benefit pension schemes. The pension asset or liability recognised in the balance sheet is the value of the schemes' assets less the present value of the schemes' liabilities, as determined at year end under GFRS 102 Section 28 'Employee Benefits'.

The pension schemes are funded, with the assets of the scheme held separately from those of the Company, in separate trustees administered funds. Pension scheme assets are measured at fair value and liabilities are measured on an actuarial basis, using the projected unit credit method and discounted at a rate determined by reference to market yields on high quality corporate bonds of a currency and term consistent with those of the scheme liabilities. The actuarial valuations are obtained triennially and are updated at each balance sheet date. The resulting defined benefit asset or liability, gross of the related deferred tax, is presented within 'provisions for liabilities' on the face of the balance sheet.

The pension cost for the schemes is determined by the actuaries who analyse the current and past service costs, together with gains and losses on settlements and curtailments. These costs are included as part of staff costs. Current service cost is the actuarially calculated present value of the benefits earned by the active employees in each period. Past service cost is the actuarially calculated adjustment in the present value of scheme liabilities related to employee service in prior periods arising in the current period as a result of the guaranteed retirement benefits. Past service costs are recognised immediately in the profit and loss account.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2017

1. ACCOUNTING POLICIES (continued)

Pension schemes (continued)

The net interest cost on the net defined benefit liability is shown within finance costs in the profit and loss account.

The actuarial gains or losses, which arise from an end of year actuarial valuation report prepared in accordance with GFRS 102, to reflect conditions at the balance sheet date, are taken to other comprehensive income.

Stocks

Stocks are stated at the lower of cost and net realisable value. In the case of the stock of goods for resale, cost is determined on a first in first out basis, and includes transport and handling costs. A provision is made where necessary for obsolete, slow moving or defective stocks.

Debtors

Trade debtors are amounts due from customers for merchandise sold or services performed in the ordinary course of business. If collection is expected in one year or less, they are classified as current assets. If not, they are presented as non-current assets.

Prepayments

Prepayments for goods and services which are to be provided in future years are recognised as prepayments and are measured at cost, with the prepayment amortised over the duration of the service provided. Prepayments are disclosed within debtors in the financial statements with the exception of the non-current portion of the EIG submarine cable prepayment.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Creditors are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities.

Trade creditors are measured at amortised cost using the effective interest method.

Provision for corporate restructuring costs

Termination benefits are payable when employment is ceased by the Company before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for such termination benefits. The Company recognises termination benefits when it is demonstrably committed to a termination through having a formal plan to cease the employment of extant employees without possibility of withdrawal. In the case of an offer made to encourage voluntary redundancies, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to their present value.

Cash flow statement

Cash flows are defined as increases or decreases in cash. The cash includes monies in hand and deposits with original maturities of three months or less.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2017

1. ACCOUNTING POLICIES (continued)

Current taxation

Current tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not been reversed at the balance sheet date, where transactions or events that result in an obligation to pay more tax or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences between the taxable profits and the results, as stated in the financial statements arise from the inclusion of gains and losses in tax assessments in periods different from those which are recognised in the financial statements.

The tax expense or income is presented in the same component of comprehensive income or equity as the transaction or other event that resulted in the tax expense or income

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of underlying timing differences can be deducted.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is measured on a non-discounted basis.

2. SEGMENTAL REPORTING

Gibtelecom's sole activity is the provision of various communications and related services. The table below shows how Gibtelecom's turnover has been derived split by the main areas of the business.

Group	2017 £	2016 £
Wireless	12,718,489	12,895,845
Fixed line rentals and voice	6,176,782	6,513,779
Fixed Broadband	4,376,841	4,938,728
National circuits	2,087,707	2,067,616
International circuits	11,958,948	11,466,170
Data Centres	2,860,113	2,834,916
Miscellaneous	662,145	767,285
	40,841,025	41,484,339

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2017

3. STAFF COSTS		1938
Group	2017	2016 £
Wages and salaries Social security costs Pension costs	7,807,901 284,499 1,926,396	7,630,922 265,467 1,527,826
	10,018,796	9,424,215

Pension costs are calculated by the actuary in line with FRS 102 to show the calculated current and past service costs of the schemes. The total current costs in 2017 were £1,965,000 (2016: £1,402,000). The difference to the figures reported above reflects other pension charges/credits effected by Gibtelecom.

In order to calculate what relates only to current year pension costs, the actuaries take into account the cash contributions effected during the year.

The total remuneration for key management personnel (19) comprising company, directorate and departmental leaders (note 4) for the year totaled £2,443,644 (2016: £2,207,197). This remuneration includes salaries, allowances, pension costs and any other allowances and benefits.

4. EMPLOYEE INFORMATION

The number of persons employed by Gibtelecom during the year is set out below under the various directorate responsibilities, with the comparative numbers for the prior year.

	As At 31 Dec	cember	Average for the year	
Group	2017	2016	2017	2016
GS (1/40)34 ■50	No.	No.	No.	No.
By Directorate				
Chief Executive Officer and Chief Operations Officer: Corporate & Regulatory; Finance; Human Resources and support staff	17	17	17	16
Director Technology: Voice Services; Transport Networks; Technical Facilities; Networks Operation Centre; Mobile Radio; Information Technology; Information Systems, Enterprise Services & Data Centres and Broadband Networks	69	62	68	60
Director Customer Operations: External Plant; Buildings & Stores; and Customer Services	58	66	57	66
Director Global Business: Marketing and Business Development	11	10	11	11
Total	155	155	153	153

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2017

5. DIRECTORS' EMOLUMENTS

The directors of Gibtelecom did not receive emoluments from the Company for their services as directors during the year (2016: £nil). One director receives emoluments in his capacity as the Chief Executive Officer of the Company and under the provisions of the Companies Act 2014 [Schedule 16, paragraph 4], these emoluments are not disclosed, but are included in the total remuneration paid to key management (note 3).

6. IMPAIRMENT OF HAVEN BUILDING

Two valuations of the Haven building were performed during the year ended 31 December 2014 by independent third party surveyors, yielding a highest value of £5,200,000 and it is not considered this would increase pending the redevelopment. The carrying value of the building on a cost basis as at 31 December 2014 was £6,181,355, and consequently the building value was impaired for the difference between these two amounts.

As at 31 December 2017, redevelopment of the building is still in the planning stage and the building is being carried at £5,200,000.

During 2019, a further valuation of the building has been carried out by an independent third party surveyor, yielding a value of the property of £5,880,000.

7. OPERATING CHARGES

	2017 £	2016 £
Included in operational charges are:		
Operating lease charges on rented properties	442,323	298,927
Foreign exchange gain	(39,079)	(136,867)
8. INTEREST PAYABLE		
	2017	2016
	£	£
Interest payable on mortgage financing and bank loans	383,704	470,797

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2017

9	TAX ON	PROFIT	ON	ORDINARY ACTIVITIES	
---	--------	--------	----	---------------------	--

a) Analysis of charge for the year

	2017	2016
	£	£
Current tax:		
Gibraltar corporation tax on profit for the year	(1,325,139)	(1,557,212)
Over provision from previous years	•	
	(1,325,139)	(1,557,212)
Deferred tax:		
Deferred tax movement on capital allowances (see note 18)	157,767	185,350
Tax on profit on ordinary activities	(1,167,372)	(1,371,862)
Total current and deferred tax relating to	N. 2. C.	210.050
Other Comprehensive Income	(520,350)	348,950

b) Factors affecting tax charge for the year

The standard rate of Gibraltar corporation tax is 10%. However utility providers, fuel suppliers and companies that enjoy a dominant position are required to pay a higher rate of 20%. Gibtelecom's activities are split between telecommunication activities and non-telecommunication activities. Telecommunication activities are subject to taxation at a higher rate of 20% given that this business is classified as a utility. Non-telecommunication activities are subject to the standard rate of taxation at 10%.

	2017 £	2016 £
Profit on ordinary activities before taxation	8,246,806	9,839,781
Corporation tax	1,649,361	1,967,956
Effects of:		
Permanent timing differences (i)	₩.	618
Pension cost contribution in excess of net pension cost charge (ii) Capital allowances in excess of depreciation (iii) Separation of non-telecommunication activities (iv) Development aid (v)	(111,200) 157,569 (114,102) (256,489)	(203,600) (190,229) 371,828 (389,361)
Gibraltar corporation tax on profit for the year	1,325,139	1,557,212

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2017

9. TAX ON PROFIT ON ORDINARY ACTIVITIES (continued)

(i) Permanent timing differences

The tax rules in Gibraltar result in certain types of income and expenses not being taken into account for corporation tax purposes. These are permanent and will not reverse at a future date.

(ii) Pension cost contribution in excess of net pension cost charge

This tax charge relates to an adjustment made in respect of taxation on pension contributions, which are adjusted annually in line with the GFRS 102 actuarial valuations.

(iii) Capital allowances in excess of depreciation

The capital allowances in excess of depreciation represent the difference between the written down allowances taken by the Group for tax purposes and the depreciation reflected in the financial statements under GFRS 102 'Property, Plant and Equipment'.

(iv) Separation of non-telecommunication activities

This represents the separation of data centre income which is charged at a lower rate.

(v) Development aid

This represents any development aid allowances that can be set off against corporation tax. In respect of the Group these are currently for works carried out on the development of the John Mackintosh Square premises and the investment in the EIG submarine cable system.

10. DIVIDENDS

	Pence per share	2017 €	Pence per share	2016 £
Final dividend paid in respect of the prior year	173.33	2,600,000	166.67	2,500,000
Interim dividend paid in respect of the current year	226.67	3,400,000	233.33	3,500,000
·-	400.00	6,000,000	400.00	6,000,000

A final dividend of £2,600,000 for the financial year 2017 was approved by the Board of Directors, with the payment effected on 26 March 2018. Following the requirements of GFRS 102 'Events after the End of the Reporting Period' this dividend will be reflected in the 2018 financial statements.

11. TANGIBLE FIXED ASSETS (continued)

(i) Assets under construction/delivery

Assets under construction/delivery represent payments towards the development and expansion of the Group's technology facilities and the costs of the ongoing upgrade of the mobile system.

(ii) Assets pledged as security

Properties with a carrying value of £14,710,024 (2016: £14,692,919) are pledged as security for the borrowings of the Group in respect of premises. Details of the loans are disclosed in notes 16 and 17.

(iii) Leasehold land and building

Leasehold land and building consists of one short-term lease of less than 49 years on the Mount Pleasant property and one lease of 150 years on the Haven property in John Mackintosh Square.

12. INVESTMENTS INCLUDED IN FIXED ASSETS

	2017	2016
Company	£	£

Note 1: The information is based on the subsidiary undertakings' latest unaudited financial statements as at 31 December 2017.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2017

13. EIG SUBMARINE CABLE

The Company entered into an agreement with several other parties (the 'consortium') during 2008 to construct a high capacity fibre-optic submarine cable system called the Europe India Gateway (EIG). One of the upgrades carried out on the system was finalised during 2015, resulting in a threefold increase in capacity in available MIU's (Minimum Investment Units) for the Company over the initial investment. During 2016 the Company has not made any further payments towards the EIG cable hence the cumulative total of payments made as at 31 December 2016 still remains as £20,149,236 (2015: £20,149,236), entitling the Company to c4.1% of the EIG's total capacity. The Company determines how it uses its EIG cable capacity, but does not control end to end physical access and the specific fibres through which the data is transmitted. The EIG investment is recognised as a prepayment in the Company's balance sheet, with the prepayment being amortised over the estimated useful life of the cable.

The Company was able to start activating capacity on the EIG cable as from June 2012. Consequently the asset was transferred out of 'assets under construction' and recognised as a prepayment on 1 June 2012, and amortised assuming a remaining useful life of 13.75 years from this date albeit the cable is expected to continue in use beyond this period.

2017	2016
£	£
13,580,086	15,061,546
307,155	37

Bank borrowings

Gibtelecom has four loan facilities in place, and as at 31 December 2017 the total balance due within one year was £1,724,742 (2016: four loans totalling £1,680,328) and a further £7,249,113 (2016: four loans totalling £8,992,492) is due after one year (note 17).

(i) 15/21 John Mackintosh Square

Mortgage finance on the Company's freehold premises at 15/21 John Mackintosh Square, taken out in June 2010 following construction of this building, has a total balance outstanding of £2,364,519 as at 31 December 2017 (2016: £2,692,919). The loan is secured by the lending bank through a first legal charge on the property. Repayment terms on this loan are quarterly repayments of £106,750 (includes capital plus interest) with interest rate charged at 3.5% above LIBOR and maturity date is October 2019.

(ii) Mount Pleasant

Mount Pleasant, a building which has always been associated with telecommunications in Gibraltar, currently houses one of the Company's technology centres, the Network Operations Centre and Rockolo data centres together with some related office facilities. The Mount Pleasant mortgage on this leasehold premises, acquired by the Company on 1 January 2009, has a balance repayable of £708,750 (2016: £1,181,250) at 31 December 2017 and is secured by the lending bank through a first legal charge over the property. Repayment terms on this loan are quarterly repayments of £59,063 (includes capital only) with interest rate charged at 4.0% above LIBOR and maturity date is February 2019.

(iii) EIG submarine cable system

The EIG (Europe India Gateway) submarine cable consortium comprises various telecommunications companies, including Gibtelecom. The cable is a 15,000 kilometre system connecting three continents (Europe, Africa and Asia) with 13 sea landings, including Gibraltar. Gibtelecom's investment in the project is c\$31.6 million which currently equates to a c4.1% ownership in the EIG consortium. As at 31 December 2017 the balance of the EIG loan of £8,000,000 remaining to be repaid was £2,300,587 (2016: £3,198,652). The bank loan agreement provides for the Company to adhere to covenants on net tangible assets and borrowings, together with the debt servicing liability. Repayment terms on this loan are quarterly repayments of £252,000 (includes capital plus interest) with interest rate charged at 3.5% above LIBOR and maturity date is April 2020.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2017

CREDITORS: AMOUNTS FALLING DUE WITHIN ONE YEAR (continued)

(iv) Haven building

16.

Gibtelecom purchased the leasehold Haven building in John Mackintosh Square from HM Government of Gibraltar in January 2014. As at 31 December 2017 the balance repayable on the loan stood at £3,600,000 (2016: £3,600,000), with the loan secured by the lending bank with a first legal charge over the property. The Haven building, built in 1972, was originally planned to house the then Gibraltar Government Telephone Department. Gibtelecom and its predecessors have occupied since inception part of this building, where some of the Company's fixed, mobile and broadband technologies are housed. The building is located adjacent to Gibtelecom's headquarters at 15/21 John Mackintosh Square, from which it can be accessed. Similarly there is a footbridge connecting the Haven building to the City Hall in John Mackintosh Square which is also partly occupied by Gibtelecom. This loan is currently an interest only loan to allow the Company time to complete the Haven Building redevelopment plans.

22. PENSION COMMITMENTS

The Company operates two pension schemes for Gibtelecom employees. One for former GNC employees and most new joiners to Gibtelecom as determined by the Company and any former GNC employees (Gibraltar Nynex Communications Limited Staff Pension Scheme). The other for former Gibtel employees (Gibtel Pension Fund) which has since 2002 been closed to new members. Both schemes provide defined retirement benefits based on final pensionable salary. The Company looked at the possibility of bringing the two pension schemes closer together, possibly through a merger of the funds, but has not proceeded in this direction at this time.

The normal retirement age of the Company is 65 years of age. However, employed members in both of the Company's pensions schemes prior to 1 June 2011 can elect to retain the previous normal retirement age of 60 years.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2017

22. PENSION COMMITMENTS (continued)

Actuarial reviews

The Gibraltar Nynex Communications Limited Staff Pension Scheme [GNC Scheme] is a defined benefit pension scheme contracted out to a pensions provider, Clerical Medical Investment Group Limited (CMIG).

The Company's total contributions to the GNC Scheme for 2017 amounted to £1,860,000 (2016: £1,795,000). The contributions also include an additional annual contribution made during the year of £270,000 (2016: £270,000). There were no exceptional pensions payments effected in respect of voluntary separations in 2017 (2016: £nil).

The latest independent actuarial valuations of the two schemes were carried out as at 1 August 2014, completed in 2016 and the recommendations adopted by the Company have taken effect as from 1 January 2016.

Under the GNC Scheme the employers' contributions are 32% of basic salaries. The additional annual contribution for past service liabilities is £270,000 from 2016 and is to be paid each year for the remainder of the ten year period that commenced in 2014 and ends in 2022. The actuarial valuation as at 1 August 2014 indicated that the GNC Scheme's obligations in respect of past service liabilities exceeded the value of the assets of the Scheme at that date by £2,691,000, with the level of asset cover being 87% at the valuation date.

The Gibtel Pension Fund [Gibtel Scheme] is also a defined benefit pension scheme. The Company's total contributions to the Scheme for 2017 amounted to £980,000 (2016: £1,050,000). This includes an additional annual contribution made during the year which amounted to £619,500 (2016: £590,000).

The actuarial valuation of the Gibtel Scheme as at 1 August 2014, as confirmed by the Company, provide for the employer's contribution to remain at 32% of basic salaries. Employees' contribution remain at 5-6.5%, depending on the individual's circumstances. From 2016 the additional annual contribution is £590,000, to be paid over ten years and increasing by 5% each year. This 2014 Gibtel Scheme valuation indicated that the Scheme's obligations in respect of past service liabilities exceed the value of the assets of the fund at that date by £6,000,000. The level of asset cover is 73% at the valuation date.

The calculations underlying the FRS102 disclosures for both the Scheme and the Fund are based on an update of the results of the latest actuarial valuations as at 1 August 2014, thereby introducing an element of approximation relative to the result of hypothetical full actuarial valuations for FRS 102 as at the measurement date. These were the latest valuation results when the calculations were undertaken. Since then, the valuation results for the Scheme and the Fund have become available and are currently being finalised. Based on the preliminary results of both the valuations, we do not expect the 2017 valuation results to materially affect the accounting disclosures, based on the impact of membership changes and miscellaneous experience in the experience gains and losses in the funding valuations. The 2017 triennial valuation results will be incorporated into the next accounting disclosures as at 31 December 2018.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2017

22. PENSION COMMITMENTS (continued)

Gibraltar Financial Reporting Standard (GFRS) 102 Section 28 'Employee Benefits'

Valuations of both schemes, for the purposes of GFRS 102 section 28 were carried out at 31 December 2016 by qualified actuaries.

Under GFRS 102 Section 28 rules, all physical payments made during the year, irrespective of the periods they relate to, are fully utilised to reduce the pension liability at the time of payment.

The GNC Scheme has purchased annuities with CMIG in respect of pensioners and dependents when members retire. Prior to the introduction of FRS102, together with a new Statement of Recommended Practice (SORP) in 2015, there was no requirement to include the cost, or market value, of the insured annuities in the Scheme's accounts. A voluntary note was nevertheless made in the Scheme's accounts to show the total cash cost of the annuities purchased to date. However, the introduction of the new accounting rules made it a requirement for annuities to be valued annually at the amount of the related obligation if the annuities were held in the name of the trustees. After an extensive review by legal advisors, actuaries, accountants and financial advisors, it was concluded that although the annuities were taken out in the members' names, the Scheme had legal title and therefore the annuities required revaluation in the GNC Scheme accounts. Following discussions with the Scheme Actuaries and the Company's auditors, the Company decided to value these annuities and have these included in the valuation of the Defined Benefit Obligations (DBO) and the assets for the year ending 31 December 2017.

The Directors set the major assumptions as at 31 December 2016 and 2017, on the basis of actuarial advice, as set out below.

	2017 %	2016 %	2015 %
Rate of increase in salaries	3.0	3.0	3.0
Rate of increase in pensions payment	3.0	3.0	3.0
Discount rate	2.7	2.7	3.8
Inflation assumption	2.6	2.6	2.6

The actuaries have determined the assumed life expectation on retirement at age 60 are:

	Valuation in	
	2017	2016
	years	years
Male aged 60 now	26.5	26.9
Male aged 45 now, from 60	27.6	28.2
Female aged 60 now	28.5	29.0
Female aged 45 now, from 60	29.7	30.5

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2017

22. PENSION COMMITMENTS (continued)

Gibraltar Nynex Communications Limited Staff Pension Scheme (GNC Scheme)

The analysis of the scheme assets at the balance sheet date was as follows:

Value at 31 December 2013 £	19,041,000	19,041,000 (23,324,000)	(4,283,000)
Value at 31 December 2014 £	20,187,000	20,187,000 (25,218,000)	(5,031,000)
Value at 31 December 2015 £	21,245,000	21,245,000 (23,631,000)	(2,386,000)
Value at 31 December 2016 £	44,221,000	44,221,000 (45,342,000)	(1,121,000)
Value at 31 December 2017 £	43,526,000	43,526,000 (42,765,000)	761,000
	Pension Contract	Market value of assets Present value of liabilities	Net pension asset/(liability)

The scheme has a number of purchased annuities in respect of past retirements. Following discussions with the Scheme Actuaries and the Company's auditors, the Company decided to value these annuities under FRS 102 and have included these in the valuation of the Defined Benefit Obligations (DBO) and the assets for the year ending 31 December 2017.

23. RELATED PARTY TRANSACTIONS

The directors consider HM Government of Gibraltar, by virtue of being the ultimate shareholder of Gibtelecom, to be a related party.

Gibtelecom Limited have elected to apply the provisions within GFRS 102 Section 33.11 and not disclose transactions and balances with HM Government of Gibraltar and other HM Government of Gibraltar controlled entities.

24. CAPITAL COMMITMENTS

As at 31 December 2017, the Group had ongoing commitments for capital expenditure of £6,035,200 and Company had ongoing commitments for capital expenditure of £5,843,600 (2016 Group and Company: £3,276,800). The latest operational capital budgets for 2018 for the Group is £10,529,000 and for the Company is £10,090,000 (2017 Group and Company: £8,164,000) excluding further EIG submarine cable investment.

25. FINANCIAL COMMITMENTS

The Group has annual lease payments totaling approximately £472,800 and the Company has annual lease payments totaling approximately £336,000 per annum (2016 Group and Company: £360,000). The Group holds a variety of leases whose terms vary from 1 month notice to 20 years. These leases are reviewed as and when required.

26. ULTIMATE CONTROLLING PARTIES

The directors consider HM Government of Gibraltar to be the ultimate controlling party by virtue of holding 100% of the legal interest in the share capital of Gibtelecom.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2016

27. SUBSEQUENT EVENTS

Noel Burrows was appointed as the new Chief Executive Officer of Gibtelecom Limited effective 6 May 2019. He joined as a member of the Board of Directors of the Company on the same day, and as a director of the subsidiaries Zinnia Limited and Rockolo Limited on 30 May 2019 and 11 June 2019 respectively.
